IVO Textiles is a commission based fabric and wallpaper printing company which is independently owned and was established nearly forty years ago; 'One metre or thousands of metres, IVO has the production solution.' We are Based in West London with accessibility to all main transport routes. Our highly skilled technicians and craftsmen, evolving with the company since its inception, have worked alongside some of the most influential interior decorators and fashion icons of recent history.

Our Studio is internationally respected for the work it produces. All our staff are degree qualified and have the rare experience of working alongside the most influential designers of our time. Still employing traditional 'hand' methods of separation and design techniques fused with the latest CAD technology the studio can offer a diverse range of skills to assist you with all your design requirements.

Including: * Origination – Fashion, Furnishing & Promotional * Separation * Colouring * Visuals * Styling and collection assistance * Silk Screen Engraveable Films

We also engrave all our Flatbed Screens 'In House', still using traditional methods to ensure the most crisp and accurate engraving process possible.

Hand – Unlimited colours: 56"(1420mm) 53M Long
The original method for screen printing. Two people hand print each screen and the result is a sharp beautiful print. This table is very flexible and is usually used for short runs and exclusive designs of a showroom quality.

We also provide a mini screen service for sampling of new designs.

Gali – Unlimited Colours: 2 x 60" (1524mm) 53M Long
A semi-automatic process using flat screens and an unlimited number of colours. This is similar to hand printing and is suitable for short runs of a showroom quality and also exclusive designs.

Flatbed Buser – 14 Colours 60"(1524mm) Flatbed, 14 colours, Buser Hydromag 7s.
The modern Flatbed machine prints up to 14 colours on flat screens and is particularly flexible with repeat sizes from 50cm to 3 metres. There are NO minimums.

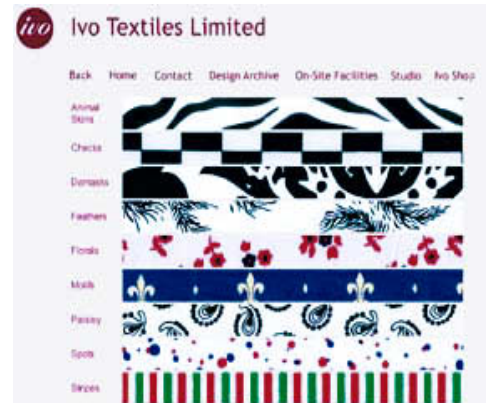

Rotary – 8 Colours 72" (1830mm) Buser Rotamac Printing Machine, 8 colours with Stork fittings.

Rotary Screen printing has cylinder screens enabling printing of continuous stripes and checks or any designs with a high coverage or difficult repeat, at 64cm. Capable of printing up to 8 colours and extremely cost effective on orders above 100 Metres with NO minimums.

Stenter

Our Stenter is equipped with a double Evac Vacuum slot ideal for applying dyes and finishes, such as optic brightness, softeners, easycare, stain resist, shower curtains and flame retardants.

www.ivo.co.uk

With over 1500 designs 'ready engraved' to screen, these designs can be coloured and printed onto your choice of cloth, meeting individual client needs.

Log on and browse through the collection at will. With NO set up or engraving costs incurred – its the fastest way to a bespoke print!
